My Next Cambodia Adventure:

I am bringing more computers to Cambodia this coming January. My goal is to bring 24 laptops to Cambodia for the school I have assisted in building. They currently have a computer lab with 20 computers and 250 students. It would be a great boon to support the kids at The CCD with more access. : My goal is 24 laptops and I have secured 5 already. The trip is on Jan 14th so time is critical.....

Here is my plan

1. It's a great time to purchase a new laptop for yourself and upgrade to the latest Windows 10 operating system. Sharing is Caring
2. Ill donate my time to help you upgrade – Ill provide any labor and skills to transfer your data and software to your new laptop.
3. You donate your used but still running windows 7 or better Laptop – Ill buff it up and clean it for the kids in Cambodia. All a win win. Its all tax deductible through Amazing Grace Spiritual Center.
4. Contact me at this email address – or by phone 2066077529.
5. And you can donate too : I have included some paperwork on how to do that. Make your donations to Amazing Grace Spiritual Center and mark it for the Computer fund for CCD.

Please consider this your Christmas gift to me and the world. Creating an opportunity for growth and education for kids that desperately need it.

Blessings Thank you so much.
