

Statement of Being By Emilie Cady

“God is Spirit, or the creative energy that is the cause of all visible things. God as Spirit is the invisible life and intelligence underlying all physical things.

God is not a being or person. God is perfect love and infinite power. God is the total of all good, whether manifested or unexpressed.

There is but one God in the universe, one source of all the different forms of life that we see, whether they be human, animals, trees or rocks.

God is Spirit. We cannot see Spirit with physical eyes. You do not see the living, thinking “me” when you look at my body. You see only the form which I am manifesting.

God is wisdom and intelligence. All the wisdom and intelligence that we see in the universe is wisdom projected through visible form. To educate never means to force into from the outside, but always means to draw out from within something already existing there. God as infinite wisdom lies within every human being, only waiting to be led forth into manifestation.”
